# 1. Reporting context

Pre-audit report for Bronze certification

## 2. Company data

### **Travel Department**

Harmony Court, Harmony Row  
DO2VY52 dublin

**Tourist volume**

**Number of employees**

**Type of tourism**

**Special target groups**

**Destinations offered**

### **Sustainability coordinator**

Claire Doherty

# 3. Introduction

This report is to show our journey to date and highlight the areas still required for full certification.

# 4. Mission statement & policy

## 4.1 Mission statement

We want to create a MORE sustainable, responsible travel experience, focusing on protecting the natural environment, preserving local customs and communities and together we will help to ensure a better world for everyone.

**Memorable** – We strive to create memorable tours for our customers, that involve, support, and enrich local communities.

**Open** – We want to be honest with our customers and have them feel safe in the knowledge that as a business we are putting together tours we can all be proud of. One of the ways we do this is by ensuring that the places we visit do not negatively impact the local wildlife.

**Resourceful** – While we realise, that as a travel company we will always be contributing to carbon emissions, we have the resourcefulness to cut back in many other ways. In our office and for those working from home we have a policy in place to measure and reduce energy and waste consumption. This includes leveraging technology to cut down on paper waste.

**Expert**– We are great at curating magical experiences for our clients. However, what we are not experts at is sustainability. So, we team up with experts such as Gold Standard to help us achieve our goal of counteracting the effects of travel on the environment. We also partner with local charities to improve the lives of those around us and so our staff can reach out to the community and give help where it is needed.

## 4.2 Policy

Travel Department believe in tourism that takes full account of its current and future economic, social, and environmental impacts, addressing the needs of visitors, the industry, the environment and host communities, as per the UNWTO.

Travel Department are committed to a future of sustainable travel using our core values instilled within the company. Our core values are being **Memorable**, **Open**, **Resourceful** and **Expert** in what we do.

We endeavour to be **Memorable** in our customer journey from a customer making a booking to visiting their destination and experiencing a new culture all the way through to post booking feedback where we can make improvements for the betterment of everyone involved. We want our customers to have a positive experience on our tours, but just as important for us is for the local inhabitants to have a positive experience from our customers and for there to be a benefit to their community. Great memories will be shared with friends and loved ones and an understanding of new cultures and different ways of living will be passed on, leading to a more understanding and accepting way of life.

We promise that by 2024 at least 1 element of each tour on every long haul and Explore itinerary we run will benefit the local community. This may include a visit to a local business, a stay in a family run hotel or even lunch in a local farm/restaurant. We want to give back to those who make the areas we bring our clients to special. We encourage ethical purchasing by letting our customers know of any reasons they should not purchase certain local items or visit certain places where there is a history of unethical work practises. This stretches to those suppliers we employ ensuring that they provide safe working environments for their staff.

Closer to home we work with local charities where our staff can get involved in giving back to the local community. We are currently partnering with Alone getting involved in fund raisers and volunteer days.

We promise to you that we will be **Open** and honest in all of our communications to you, so you can feel secure in the knowledge that we are doing what we can to remain sustainable for the future.

Part of that Openness is letting everyone know that we are animal lovers and want to ensure that we do not contribute to animal captivity or cruelty. We have a strict animal welfare policy which we adhere to in all of our tours. Please see our Animal Welfare page for more information.

As a company we aim to be **Resourceful** by doing what we can to cut back on waste in all aspects of our daily life. We want to work smarter to do what we can to help the environment. While we realise, that as a travel company we will always be contributing to a certain amount of carbon emissions, be it by planes, buses, or boats, we have the resourcefulness to cut back in many other ways.

We have a waste policy in our office which includes a commitment to measure and reduce our water and energy consumption and waste production and promote the use of this at home too. We limit our paper usage and use recycled paper where possible. This is built into our company ethos, included in our staff handbook and included in all inductions for new staff.

In addition to the above, we will be utilising the latest technology to produce a positive online experience when booking and utilising technology more which will take care of all the customers' needs and cut down on paper

usage, computing requirements and communications requirements. We expect delivery of this by end 2024.

We are great at curating magical experiences for our clients. However, what we are not **Experts** at is carbon off-setting. So, we team up with the experts such as Gold Standard to ensure we are doing all we can to counteract the effects of travel on the environment. For tours departing from 2024 we are giving our customers the opportunity to contribute towards carbon off-setting for every tour they purchase. All proceeds from this go directly towards off-setting different projects around the world.

We want travel to always be a part of peoples' lives and to enrich those who are a part of that journey. We are committed to making continuous improvements to everything we do.

## 5. Assessment overview

8. Sustainability Management System & Legislation	27	23 4

# 6. Detailed overview

## 1. Company Characteristics and Engagement

12

### Company Engagement

12

Action			Details
<p><b>1.1. Sustainability Coordinator</b> Please fill in the details of your sustainability coordinator below. If you want to adjust the sustainability coordinator, please do so in your company profile, under the «Contact tab» in the «Admin section» of TOAST. (see guidance for more info.)</p>	✓	✓	<p>Claire Doherty clairedoherty@traveldepartment.ie  01 637 1613</p>
<p><b>1.2. Sustainability Integration</b> Sustainability related tasks and responsibilities are part of your company procedures and processes.</p> <p>Appropriate responsibilities should be assigned to staff for actions related to sustainable tourism, if an effective internal communication system exists.</p> <p>In larger/complex organisations a sustainability team is established consisting of managers of and/or key departments (e.g. product development; marketing and communication, human resources and internal logistics). The responsibilities of this team should be clearly defined.</p>	✓	✓	<p>The Product and Operations Director heads a team, including staff from different teams including Development, Inventory and marketing. Ranging from Director, to managers to contract staff. We meet quarterly and all follow the EMS plan.</p> <p> Prioritization Plan.xlsx  Job spec with Sustainable spec.docx</p>
<p><b>1.3. Committed Resources</b> The management commits to provide adequate resources (human and/or financial) for the implementation of the sustainability policy.</p>	✓	✓	<p>Details of financial resources are listed in the Prioritisation plan and all funds are granted by the company and staff resources are also backed by the company. Budget is agreed on prior to financial year to agree required amount. 2023 is agreed as per the plan. 2024 will be agreed in November 2023 and added to the plan</p>

			 Prioritization Plan.xlsx
<b>1.4. Trained Sustainability Coordinator/Team</b> The sustainability coordinator (or team, in case of larger companies) has successfully completed the basic TOAST Green Leader Assessment.	✓	✓	John Allen Adriana Olarte Eve Coyle   Biodiversity certificate.pdf  carbon management certificate.pdf  energy management certificate.pdf
<b>1.5. Additional Training</b> The sustainability coordinator, key staff members and/or management have received additional training/education related to sustainable tourism management and health & safety issues (e.g. ISO 14001, university courses, specific courses).	✓	✓	Claire Doherty has completed ITAA sustainability training and also Travlife training and Climate Ready Academy training.  We have also recently hired a new Product Manager, Francesca Rizarelo who has just finished her MBA in Business with her dissertation on Sustainable Tourism.   Sustainability Pass.pdf
<b>1.6. Mission Statement</b> A sustainability mission statement is defined and published on the company's website(s).	✓	✓	<u><b>Mission Statement:</b></u>  We want to create a MORE sustainable, responsible travel experience, focusing on protecting the natural environment, preserving local customs and communities and together we will help to ensure a better world for everyone.

**Memorable** – We strive to create memorable tours for our customers, that involve, support, and enrich local communities.

**Open** – We want to be honest with our customers and have them feel safe in the knowledge that as a business we are putting together tours we can all be proud of. One of the ways we do this is by ensuring that the places we visit do not negatively impact the local wildlife.

**Resourceful** – While we realise, that as a travel company we will always be contributing to carbon emissions, we have the resourcefulness to cut back in many other ways. In our office and for those working from home we have a policy in place to measure and reduce energy and waste consumption. This includes leveraging technology to cut down on paper waste.

**Expert**– We are great at curating magical experiences for our clients. However, what we are not experts at is sustainability. So, we have teamed up with the experts at NuCycle to help us achieve our goal of counteracting the effects of travel on the environment. We also partner with local charities to improve the lives of those around us and so our staff can reach out to the community and give help where it is needed.

<https://www.traveldepartment.com/about-us/sustainability>

<p><b>1.7. Sustainability Policy</b> The company has a written sustainability policy which reflects the company structure and activities, and is supported by top management.</p> <p>The policy aims for a reduction of the negative social, cultural, economic and environmental impacts of the company's activities, and includes employee related health &amp; safety aspects.</p>	✓	✓	<p><a href="https://www.traveldepartment.com/about-us/sustainability">https://www.traveldepartment.com/about-us/sustainability</a></p> <p> Sustainability Policy.docx</p>
<p><b>1.8. Communication</b> The sustainability policy is accessible to all employees, suppliers and the general public via the company website(s) (where no website exists, via other means).</p>	✓	✓	<p><a href="https://www.traveldepartment.com/about-us/sustainability">https://www.traveldepartment.com/about-us/sustainability</a></p>
<p><b>1.9. Collaboration</b> The company is actively involved in external forums and working groups which are supportive to sustainability in tourism.</p>	✓	✓	<p>We are involved with the ITAA sustainability team, and Claire Doherty is on the Sustainable Travel Committee for the ITAA and involved with same in AITO (Association of Independant Tour OPERators in the UK).</p>
<p><b>1.10. Exchanging Knowledge</b> Experiences, training materials and best practices concerning sustainability are shared with other companies and stakeholders.</p>	✓	✓	<p>Claire Doherty deals with various companies on their best practised including ABTA. She has given presentations to the ITAA members on options for increasing sustainability practised and certifications. One such event was at the 2022 ITAA conference in October.</p> <p> ITAA Presentation.ppt</p>
<p><b>1.11. Overview partners/suppliers</b> The company has a system in place to identify the sustainability performance of the key supply chain businesses it works with, whether directly or indirectly.</p>	✓	✓	<p>Please find attached the table we are working on to ensure a sustainable element is included in at least each longhaul and "explore" tour.</p> <p> Sustainable tour elements.xlsx</p>

<p><b>1.12. Public Reporting</b></p> <p>The key sustainability results are reported to the public at least every two years and are available on your company website.</p> <p>The company must also report its progress to Sustainable Travel Ireland via TOAST at least every two years.</p>	<p>✓</p>	<p>✓</p>	<p>I have added a copy of the STI report to our Sustainability policy here: <a href="https://www.traveldepartment.com/help-centre/legal/sustainability-policy">https://www.traveldepartment.com/help-centre/legal/sustainability-policy</a> under the "OPEN" category.</p>

## 2. Environmental Management

40

4

7

### Environmental Management Systems (EMS)

5

1

Action			Details
<p><b>2.1. Documentation</b></p> <p>An environmental impact management plan &amp; reduction strategy is documented, which identifies environmental impacts in the key areas outlined below.</p> <p><b>Key Areas:</b></p> <ul style="list-style-type: none"> <li>• Use of energy. (e.g. fuel, electricity)</li> <li>• Creation of waste, including food and solid waste.</li> <li>• Use of water and water stewardship measures, including risks and climate change weather events, and indicating water source.</li> <li>• Use of detergents and disinfectants.</li> <li>• Impact on wildlife / biodiversity.</li> <li>• Sewage / grey water effective treatment - visual inspection/record of treatment systems.</li> <li>• Pollution from greenhouse gases, noise, light, run-off, erosion, ozone-depleting compounds, and air and soil contaminants.</li> </ul>	✓	✓	 Energy _ Water _ Waste.pptx  Usage Projections.xlsx  Working out Carbon Footprint.xlsx
<p><b>2.2. Minimising Impacts</b></p> <p>The Environmental Management System details how environmental impacts are being <b>minimised</b> and <b>avoided</b> in the key areas below.</p> <p>Key Areas:</p>	✓	✓	Details included in Documentation.

<ul style="list-style-type: none"> <li>• Use of energy (e.g. fuel, electricity)</li> <li>• Creation of waste, including food and solid waste</li> <li>• Use of water and water stewardship measures, including risks and climate change weather events, and indicating water source</li> <li>• Use of detergents and disinfectants</li> <li>• Impact on wildlife / biodiversity</li> <li>• Sewage / grey water effective treatment - visual inspection / record of treatment systems</li> <li>• Pollution from greenhouse gases, noise, light, run-off, erosion, ozone-depleting compounds, and air and soil contaminants</li> </ul>			
<p><b>2.3. Impact and Integrity</b> Site selection, design and access have taken account of visual amenity, landscape, cultural and natural heritage, and the protection of biologically sensitive areas and the assimilative capacity of ecosystems.</p> <ul style="list-style-type: none"> <li>• The integrity of archaeological, cultural heritage, and sacred sites has been preserved.</li> <li>• The integrity and connectivity of natural sites and protected areas has been preserved.</li> <li>• Threatened or protected species have not been displaced and impact on all wildlife habitats has been minimised and mitigated.</li> <li>• Watercourses / catchments / wetlands have not been altered and run-off is reduced where possible and any residue is captured or channelled and filtered.</li> <li>• Risk factors (including climate change, natural phenomena, and visitor safety) have been assessed and addressed.</li> <li>• An impact assessment (including cumulative impacts) has been undertaken and documented as appropriate.</li> </ul>	-	-	This is not relevant for us at all. We work out of a city centre office, so this is not applicable?
<p><b>2.4. Incident reporting</b> The Environmental Management System includes details of a system whereby environmental impacts/incidents are reported to management (by</p>	✓	✓	As per EMS attached

staff, guides, visitors etc).			
<p><b>2.5. Action Plan</b></p> <p>The Environmental Management System includes a documented <b>action plan programme</b> to ensure that environmental impacts are being addressed.</p>	✓	—	<p>please find attached</p> <p> Environmental Management System.xlsx</p>
<p><b>2.6. Annual Review</b></p> <p>The EMS will be reviewed annually by the business and will be developed following input from staff from all departments of the business.</p> <p>Your business should agree that your Environmental Management System will be reviewed on an annual basis and include the following:</p> <ul style="list-style-type: none"> <li>• A clear statement that the activities of the company do not jeopardise the provision of basic services, such as water, energy, or sanitation to neighboring communities.</li> <li>• Energy consumption should be measured, sources indicated, and measures to decrease overall consumption should be adopted. The use enewable energy will be pursued.</li> <li>• Water consumption should be measured, sources indicated, and measures to decrease overall consumption should be adopted.</li> <li>• Greenhouse gases/carbon emissions are measured and offset. This needs to be communicated clearly with evidence of carbon calculators used and chosen offset scheme/s named.</li> <li>• The EMS should have been developed following input from all departments of the business.</li> </ul> <p>A formal review of your performance against your goals and objectives should be carried out annually at a minimum.</p>	✓	—	<p>Review of EMS on an annual basis is built into our overall plan and timeline.</p>

## Energy Conservation

5

Action			Details
<p><b>2.7. Energy Monitoring</b> Energy used in the organisation's operations and those over which it has direct influence / control is monitored and managed.</p> <p>Energy consumption should also be measured by type and steps taken to minimise overall consumption.</p>	✓	✓	<p>This is all part of the EMS system, documents included in step 2.1</p>
<p><b>2.8. Renewable Energy</b> The organisation makes efforts to increase its use of renewable energy.</p> <p>Renewable energy sources are favoured and the share of renewable energy in your total energy supply is monitored and managed.</p>	✓	—	<p>We are using FloGas for our electricity as of December 2022, so our entire tarriff is now renewable.</p> <p> Electric Ireland Bill.pdf</p>
<p><b>2.9. Minimising Energy Consumption</b> Show how equipment and practices are used to minimise energy use.</p>	✓	✓	<p>We are limiting our printing, saving paper and energy (approx 10,000 pages a year). We only use the dishwasher when it is full. We will be fitting sensor lighting in the office. The only machinery we have are 2 printers and a dishwasher. We had a reduction in usage from May 2022 compared to May 2023 of over 1000 units. Bills attached as proof.</p> <p> Electric Ireland Bill.pdf</p> <p> Flogas for May 2023.pdf</p>
<p><b>2.10. Energy-Saving Goals</b></p>	✓	—	<p>To achieve the 6% reduction year on year we can: Change to completely renewable</p>

Goals/targets for reducing overall energy consumption are in place.			energy supplier. Greater automation of lighting in the office. Greater automation of heating in office. Ensuring PC's are turned off outside office hours.
<b>2.11. Guidance / Encouragement</b> Staff and guests are given guidance on minimising energy use.	✓	—	<p>All of our energy saving tactics are shared with our staff and encouraged for those working from home to implement locally. We have signs in the office for turning off lights and using recycling bins. We cover Sustainability at all of our management meetings. example of a recently used presentation attached.</p> <p> Sustainability slides.pptx</p> <p> Turn off lights.jpg</p>

## Waste Management

5

1

Action			Details
<b>2.12. Destination waste management</b> The organisation is aware of waste management arrangements in the main destinations they visit, and seeks to influence their improvement where necessary and achievable.	—	—	
<b>2.13. Waste management</b> A solid waste management plan is in place for the organisation's operations and those over which it has direct influence/control.  Waste (including food waste) is measured and mechanisms are in place to	✓	—	As we do not create any of our own food or prepare for visitors etc, all we have is the food waste created by a few staff who are in the office 2 days a week. Food waste is minimal to non-existent.

<p>reduce waste. Where reduction is not feasible waste is reused or recycled. Any residual waste disposal has no adverse effect on the local population or the environment.</p>			 Energy _ Water _ Waste.pptx
<p><b>2.14. Reduce, reuse, recycle</b> The solid waste management plan includes actions to separate, reduce, reuse or recycle waste where applicable.</p>	<p>✓</p>	<p>—</p>	<p>We have various signposts around the office regarding recycling and reduction.</p>  Recycling in office.jpg  recycling in kitchen.jpg
<p><b>2.15. Approved waste disposal</b> Waste disposal is to a government run or approved facility and there is evidence that the facility has no negative impact on the environment or local population.</p>	<p>✓</p>	<p>✓</p>	<p>Yes, all waste is disposed of within the buildings waste disposal system which is legal.</p>
<p><b>2.16. Measurement &amp; reduction goals</b> Disposed solid waste is measured by type and goals are in place to minimize non-diverted solid waste.</p>	<p>✓</p>	<p>✓</p>	<p>Current readings are:</p> <p>Per Employee per year</p> <p>Recycling (KG)</p> <p>208</p> <p>Landfill (KG)</p> <p>312</p> <p>Recycling CO2 Footprint (208kg = 4 CO2 kg)</p> <p>4</p> <p>Landfill CO2 footprint (312kg = 136 CO2kg )</p>

			136
<b>2.17. Guidance</b> Guidance is given to customers, staff and suppliers of products and services on minimizing waste.	✓	✓	Introducing food composting. Encouraging the use of reusable cups / food containers by providing re-useable coffee cups Sign posting what waste products are general, recycling and compost Implementing a "no printing unless essential" policy.

### Water Conservation

Action			Details
<b>2.18. Destination Water Management</b> Water risk in the main destinations visited has been assessed and documented.	—	—	
<b>2.19. Water Risk Assessment</b> In destinations visited where water risk has been assessed as high, water stewardship goals have been determined.	—	—	
<b>2.20. Monitoring</b> Water used in the organisation's operations and those over which it has direct influence/control is monitored and managed.	✓	—	This will be done through our annual auditing as part of our EMS plan.
<b>2.21. Minimising Water Consumption</b> Equipment and practices are used that minimise water consumption.	✓	—	We will be replacing taps with auto-turn off taps and already have auto flushers on the mens toilets.  We encourage use of the dishwasher only when full and have "save water" signs up within the

			office at all water dispensing points
<b>2.22. Water Saving Goals</b> Goals for reducing water consumption are in place.	✓	—	We are looking at a reduction of 6% YOY until 2026. Details in EMS
<b>2.23. Sustainable Sourcing</b> Water originates from a legal and sustainable source which has not previously affected, and is unlikely in future to affect, environmental flows.	✓	✓	Water is attained through Dublin City Council, we are a city centre office.
<b>2.24. Tourism Impacts</b> Consideration is given to the cumulative impacts of tourism in the locality on water sources.	—	—	
<b>2.25. Guidance</b> Staff and guests are given guidance on minimising water use.	✓	—	Signage within the office.

## Wastewater

Action			Details
<b>2.26. Destination wastewater treatment</b> Wastewater, including grey water, is effectively treated and is only reused or released safely, with no adverse effects to the local population or the environment.  The organisation is aware of wastewater treatment arrangements in the main destinations visited, and seeks to influence their improvement where	—	—	

necessary and practicable.			
<b>2.27. Wastewater treatment</b> Wastewater resulting from the business is disposed of to a municipal or government approved treatment system, if available. If suitable municipal wastewater treatment is not available, there is a system in place on site to treat wastewater (that meets international wastewater quality requirements) and ensures no adverse effects on the local population and the environment.	✓	✓	This is all done through Dublin City Council

## Transport

4

1

Action			Details
<b>2.28. Sustainable transport</b> The organisation seeks to reduce transportation requirements and actively encourages the use of cleaner and more resource efficient alternatives by customers, employees, suppliers and in its own operations.  Where practical and feasible, the cleanest and most resource efficient transport options are used in the provision of tour programmes and excursions.	✓	✓	We use coaches for all of our tours, unless a visit is within walking distance of the hotel.  As Ireland is an island it is not possible to arrange tours without flights to almost all of our destinations.  We are offering more itineraries with train travel, instead of coach such as Little Trains of the Pyrenees and our new Treasures of Italy by rail. <a href="https://www.traveldepartment.com/holiday/treasures-of-italy-by-rail-incl-venice-florence-sorrento-rome">https://www.traveldepartment.com/holiday/treasures-of-italy-by-rail-incl-venice-florence-sorrento-rome</a>
<b>2.29. Raising awareness</b> Information is provided and promoted to customers on alternative (climate friendly) transport options, where available.	✓	✗	All of our tours are coach tours and alternative transport is not an option.
<b>2.30. Providing alternative transport options</b> Alternative transport options (e.g. bike rental, car sharing, pick-ups) for guests and staff are provided or facilitated.	✓	—	The Bike to Rent scheme is available for all employees.

<b>2.31. Market accessibility</b> Markets accessible by short and more sustainable transport options are favoured.	✓	—	
<b>2.32. Supplier Transport</b> Local suppliers are favoured and daily operations seek to minimize transport use.	✓	✓	We always use local coach companies for our excursions, cutting down on their travel to destinations.

## Greenhouse gas emissions

3

1

Action	✓	✓	Details
<b>2.33. Monitoring &amp; Managing GHG</b> The organisations total direct and indirect greenhouse gas emissions are monitored and managed.  Greenhouse gas emissions from all sources controlled by the organisation are identified, calculated where possible and procedures implemented to avoid or to minimize them.	✓	✓	We used an external expert to measure these and are taking the suggested steps in order to ensure reduction as per report: <a href="https://docs.google.com/spreadsheets/d/11_8pdX-fEyPWFy36d7aY5z7tsBMXRVPs46bpRw_McGg/edit#gid=178723983">https://docs.google.com/spreadsheets/d/11_8pdX-fEyPWFy36d7aY5z7tsBMXRVPs46bpRw_McGg/edit#gid=178723983</a> I could not upload so hopefully link will work. All documents are on a googledocs spreadsheet which can be viewed.
<b>2.34. Footprint monitoring - tourist / night</b> Carbon Footprint per tourist / night is monitored and managed.	✓	✓	This is also available within the report here <a href="https://docs.google.com/spreadsheets/d/11_8pdX-fEyPWFy36d7aY5z7tsBMXRVPs46bpRw_McGg/edit#gid=178723983">https://docs.google.com/spreadsheets/d/11_8pdX-fEyPWFy36d7aY5z7tsBMXRVPs46bpRw_McGg/edit#gid=178723983</a> but as we have over 180 tours we do not manage each tour, but rather a selection based on geographical distance and number of nights etc
<b>2.35. Carbon offsetting</b> The total carbon footprint of business operations is offset. It is	✓	✓	As per our policy, we have offset our office carbon for 2022 and will continue to do so and then provide the opportunity for customers to offset their travel emissions from 2024. Please

<p>recommended to use a certified agency where practical.</p> <p>(it is NOT a requirement to include the carbon footprint acquired by visitors before arrival or post departure).</p>			<p>find certificate of payment of carbon offset for 2022 attached.</p>  Certificate of offset.pdf
<p><b>2.36. Encouragement</b></p> <p>Actions are taken to encourage suppliers of products and services to avoid and reduce significant annual emissions.</p>	--	--	

## Harmful substances

Action			Details
<p><b>2.37. Inventory</b></p> <p>The use of harmful substances including pesticides, paints, swimming pool disinfectants, and cleaning materials, is minimized, and substituted when available by innocuous products or processes.</p> <p>All storage, use, handling, and disposal of chemicals are properly managed.</p> <p>An inventory of harmful substances has been made and material safety data sheets (MSDS) are held.</p>	✓	✓	<p>We will have invoices from our office supplies provider showing purchasing of eco-friendly products where available. We do not keep any chemicals/harmful substances in the office.</p>
<p><b>2.38. Environmentally friendly alternatives</b></p> <p>Action has been taken to source more environmentally friendly alternatives.</p>	✓	✓	<p>INvoices from office supply company will be available showing eco-friendly purchases where available.</p>
<p><b>2.39. Handling and storage</b></p> <p>Chemicals, especially those in bulk amounts, are stored and handled in</p>	✓	✗	<p>This is not applicable as we do not use bulk amounts of chemicals. We have eco friendly cleaning products for our office kitchen (which seats about 10 people) and we have toilet</p>

accordance with appropriate standards.		cleaner for a 2 cubicle womens bathroom and a small mens bathroom, so no special storage required.
<b>2.40. Visitor information</b> Visitors are informed in advance to avoid use of personal toiletries and other substances which may be considered harmful to the local environment.	✓	— This is not applicable.

## Minimize pollution

2

Action			Details
<b>2.41. Identification and Monitoring</b> The organisation implements practices to minimize pollution from: noise light runoff erosion ozone-depleting substances air, water and soil contaminants.  The potential sources of pollution outlined above have been <b>identified, reviewed, and monitored.</b>	✓	✗	This is not applicable as we run out of an office which is not noisy, lights are turned off after 6pm, we have no runoff or can cause erosion or use ozone-depleting substances.
<b>2.42. Reduction</b> The organisation implements practices to minimize pollution from: noise light runoff erosion ozone-depleting substances air, water and soil contaminants.  Action is taken to <b>minimize</b> and where possible <b>eliminate pollution</b> from the sources covered in the criterion.	✓	✗	Not applicable for the same reasons we do not / can not identify and monitor.

## Impact and integrity

9

Action			Details
<b>2.43. Site selection, nature and culture</b> Site selection, the design and how you access has taken into account the visual amenity, landscape, cultural and natural heritage.	✓	—	Not applicable as we are based in a city centre office.
<b>2.44. Sensitive areas</b> Site selection, design and access have taken account of the protection of biologically sensitive areas and the assimilative capacity of ecosystems.	✓	—	Not applicable as we are based in a city centre office.
<b>2.45. Cultural heritage</b> The integrity of archaeological, cultural heritage, and sacred sites has been preserved.	✓	—	not applicable
<b>2.46. Protected areas</b> The integrity and connectivity of natural sites and protected areas has been preserved.	✓	—	Not applicable as we are based in a city centre office.
<b>2.47. Biodiversity</b> Threatened or protected species have not been displaced and impact on all wildlife habitats has been minimized and mitigated.	✓	—	That is correct as we are based in a city centre office.
<b>2.48. Water landscape</b> Water courses/catchments/wetlands have not been altered. Run-off is reduced where possible and any residue is captured or channeled and filtered.	✓	—	Not applicable as we are based in a city centre office.
<b>2.49. Risk assessment</b> Risk factors (including climate change, natural phenomena, and visitor	✓	—	Not applicable as we are based in a city centre office.

safety) have been assessed and addressed.			
<b>2.50. Impact assessment</b> An impact assessment (including cumulative impacts) has been undertaken and documented as appropriate.	✓	—	Not applicable as we are based in a city centre office.
<b>2.51. Landowner agreements</b> Any relevant landowners have been contacted and written agreements signed if the organisation makes use of private lands. These agreements would be developed with the consent of and in collaboration with the community.	✓	—	Not applicable as we are based in a city centre office.

## 3. Responsible Marketing

7

### Accurate promotion

4

Action		 Details
<p><b>3.1. Real pictures</b> Promotional materials and marketing communications are accurate and transparent with regard to the organisation and its products and services, including sustainability claims. They do not promise more than is being delivered.</p> <p>Images used in promotion are of actual experiences offered and places visited by customers.</p>	<p>✓</p>	<p>✓ I confirm that Promotional materials and marketing communications are accurate and transparent with regard to the organisation and its products and services, including sustainability claims. We do not promise more than is being delivered.</p> <p>Images used in promotion are of actual experiences offered and places visited by customers along with first hand images and videos created by our local guides and customers and staff who have been to visit these areas.</p>
<p><b>3.2. Sustainability claims</b> Sustainability claims are based on records of past performance.</p>	<p>✓</p>	<p>✓ We have only published our sustainability plans, which we are currently adhering to and have made no claims beyond what we are currently doing as can be seen here: <a href="https://www.traveldepartment.com/about-us/sustainability">https://www.traveldepartment.com/about-us/sustainability</a></p>
<p><b>3.3. Promotional materials</b> Promotional materials are accurate and complete and do not promise more than can be delivered by the business.</p>	<p>✓</p>	<p>✓ All marketing can be seen / copies provided. We do not include any claims on sustainability in our marketing.</p>
<p><b>3.4. Wildlife and events</b> Marketing about wildlife or cultural events does not promise sightings which cannot be guaranteed.</p>	<p>✓</p>	<p>✓ Our communications are factual and realistic. This can be seen on the website and e-mails. We do not go into details of sightseeing etc in other forms of marketing. See example below from our Safari in South Africa:</p>

After lunch at the lodge, you will enjoy your first game drive in the Kariega Game Reserve. The experienced game rangers will try to bring you close to the Big 5 - lion, elephant, rhino, buffalo and leopard as well as a multitude of other African wild game and bird species. Have the camera ready and the binoculars polished in anticipation for your game drive.

## Reporting and communication

3

Action		 Details
<p><b>3.5. Sustainability performance</b> The organisation communicates its sustainability policy, actions and performance to stakeholders, including customers, and seeks to engage their support. Regular reports are made available on sustainability performance.</p>	✓	<p>Updates on our sustainability plan is given regularly to all staff and board members and when updates are appropriate, to customers.</p> <p>The Sustainability report is also published on our website: <a href="https://www.traveldepartment.com/media/39780/sustainability_report_travel_department_25_11_2022.pdf">https://www.traveldepartment.com/media/39780/sustainability_report_travel_department_25_11_2022.pdf</a></p>
<p><b>3.6. Sustainability policy</b> Sustainability policies and actions are reported in external and internal communication material, including the organisation's website.</p>	✓	<p>Our sustainability policy is on the website here: <a href="https://www.traveldepartment.com/help-centre/legal/sustainability-policy">https://www.traveldepartment.com/help-centre/legal/sustainability-policy</a> and shared within the organisation.</p>
<p><b>3.7. Communication</b> Communications contain messages inviting consumer and stakeholder support.</p>	✓	<p>Please find attached a newsletter to our suppliers worldwide from Dec 22 promoting sustainability.</p> <p> Supplier Newsletter Dec 2022.pdf</p>

## 4. Procurement

9

1

### Environmentally preferable purchasing

3

1

Action			Details
<b>4.1. Purchasing policy</b> A documented environmental purchasing policy is in place. Your purchasing policies should favour environmentally sustainable suppliers and products, including capital goods, food, beverages, building materials and consumables.			
<b>4.2. Certified products</b> Preference is given to products and suppliers with environmental certification – notably with respect to wood, paper, fish, other foods, and products from the wild. Where certified products are not available, consideration is given to origin and methods of growing or production.			We choose eco friendly products where applicable as per our Purchasing policy, but we don't really use "products" apart from stationary which has been addressed.
<b>4.3. Threatened species</b> Threatened species are not used or sold.			Not applicable. We don't use or sell any "species". We arrange tours, we don't buy in or use animals in any way.
<b>4.4. Sustainable supply chain</b> Service providers and other operators selected and featured in tours have environmental/sustainability certification where possible.  Where certified businesses are not available, the sustainability performance of service providers is considered and required improvements are communicated and implemented.			See newsletter to suppliers in Dec 2022 regarding sustainable practises.   Supplier Newsletter Dec 2022.pdf

## Efficient purchasing

3

Action			Details
<p><b>4.5. Multiple use</b> The organisation carefully monitors and manages the purchasing and use of consumable and disposable goods, including food, in order to minimise waste.</p> <p>Purchasing favours reusable, returnable and recycled goods.</p>	✓	✓	<p>This is not very applicable within the office, but we have no single-use plastics or cups within the office and provide re-useable coffee cups as per our policy.</p> <p> Environmental Purchasing.docx</p>
<p><b>4.6. Packaging</b> Unnecessary packaging is avoided (especially plastic), and this is considered with buying in bulk as appropriate.</p>	✓	—	<p>Not really applicable as we don't package any goods. When purchasing we buy in bulk where appropriate as per our policy.</p> <p> Environmental Purchasing.docx</p>
<p><b>4.7. Single use plastics</b> Single Use plastics are avoided unless no alternative is available.</p>	✓	✓	<p>This is included in our purchasing policy and shared with our office manager who looks after all purchasing.</p> <p> Environmental Purchasing.docx</p>

## Local purchasing

3

Action			Details
<p><b>4.8. Source check</b> When purchasing and offering goods and services, the organisation gives priority to local and fair trade suppliers whenever these are available and of sufficient quality. The organisation regularly audits its sources of supply of goods and services.</p>	✓	—	<p>Not applicable as we do not offer goods. We arrange tours for customers and do not arrange the purchase of goods on their behalf.</p>
<p><b>4.9. Local suppliers</b> In selecting service providers and products/experiences to feature in programmes, the organisation favours those that are locally owned and operated.</p>	✓	—	<p>Our hotels and restaurants in our tours are mainly locally owned and operated. We have a plan in place as part of our strategy to include hotels and inclusions which are run by locals. This will be completed for 2024 long haul and tductive tours with a longer term plan to include for all tours. Please find work in progress attached.</p> <p> Sustainable tour elements.xlsx</p>
<p><b>4.10. Local purchasing opportunities</b> Visitors are given the opportunity to purchase locally produced arts and crafts based on the area’s nature, history and culture.</p>	✓	—	

## 5. Customer Experience and Education

29

1 1

### Customer experience

3

Action			Details
<p><b>5.1. Feedback System</b> A customer feedback system is in place, together with analysis of the results. Customer satisfaction, including aspects of sustainability, is monitored and corrective action taken.</p>	✓	✓	We send a feedback questionnaire to all customers after their trips which then feeds back into our reporting system through PowerBI. This can be demonstrated in person as it involves a lot of pages with varying information related to each tour.
<p><b>5.2. Customer Feedback</b> All customers are given the opportunity to fill out a questionnaire asking them about their experiences of products and services.  Negative feedback and responses made to your organisation are recorded and there is evidence of corrective actions taken.</p>	✓	—	we have customer service questionnaires which are sent after each tour and results displayed via PowerBI and results are reviewed and followed up on monthly by the products team.
<p><b>5.3. Partners and destinations</b> Feedback from customers is provided to tourism businesses and destinations contracted / visited when on tour.</p>	✓	—	Yes, part of our CSQ reviews involve feedback to the local ground agents showing their customer scores and areas for improvement. Such e-mails are sent in the middle of each month following the previous months replied by the relevant member of the product team to the relevant supplier. I appear unable to upload a copy of these e-mails but have them saved in a file for auditing when required.

### Information and interpretation

Action			Details
<p><b>5.4. Accurate visitor information</b></p> <p>The organisation provides information about and interpretation of the natural surroundings, local culture, and cultural heritage, as well as an explanation of appropriate behaviour while visiting natural areas, living cultures, and cultural heritage sites. (Please tab guidance section for more information).</p>	✓	✓	<p>We provide a "Know Before You Go" document for each country detailing local customs, what to expect and how to treat local people/wildlife.</p> <p> Know before you go _ Australia.pdf</p>
<p><b>5.5. Information access</b></p> <p>The organisation provides visitors with access to one informative item of non-personal interpretation. For example:</p> <ul style="list-style-type: none"> <li>- Pre-visit materials (e.g. briefing information)</li> <li>- Travel library available</li> <li>- Suggested reading lists</li> <li>- Self guiding nature trails</li> <li>- Interpretive visitor centres</li> <li>- Museums trips</li> <li>- Art galleries</li> <li>- Multimedia displays</li> <li>- Reference materials</li> <li>- Other</li> </ul>	✓	✓	<p>All of our tours give briefing material but also include guided visits to museums/galleries/visit centres etc.</p> <p> Explore Vietnam 2022 new tone of voice.docx</p>
<p><b>5.6. Documented Tour Planning</b></p> <p>A current documented interpretive plan is in place for tour products and deals with the following themes:</p> <ul style="list-style-type: none"> <li>- Research carried out</li> <li>- Products' target audience</li> <li>- Main themes and messages of the interpretation</li> <li>- Goals and objectives of the interpretive experience</li> </ul>	-	-	

<ul style="list-style-type: none"> <li>- Structure of the interpretive experience (e.g. guided, demo, course)</li> <li>- Special features of the interpretation (e.g. visual, fun, interactive etc)</li> <li>- Communicating the principles of ecotourism</li> <li>- The significance of the area</li> <li>- Monitoring and evaluating the interpretation</li> <li>- Improving the interpretive experience over time</li> </ul> <p>The implementation plan will include a section detailing how interpretive plans will be implemented including any reference where relevant.</p>			
--	--	--	--

## Use of non-personal interpretation

3

Action			Details
<p><b>5.7. Staff training</b> Staff are informed and trained about the natural and cultural heritage of the areas visited.</p>	✓	✓	<p>We have frequent staff training on our tours and what they include. Aside from initial training, our experienced Product team carry out regular training with our sales and marketing staff to help them better understand our product. Copy of such training documents attached.</p> <p> TD active Holidays for beginners sales training.pptx</p>
<p><b>5.8. Behavioural awareness</b> Information is provided to customers about appropriate behaviour in the areas visited.</p>	✓	✓	<p>This is covered in our "Know Before you Go" documentation. Example saved below.</p> <p> Know before you go _ Cuba.pdf</p>
<p><b>5.9. Accessible information</b> Information is provided to visitors of differing needs in appropriate formats.</p>	✓	—	<p>Our tours are not suitable for people with sight or severe mobility difficulties as there is a lot of getting on and off coaches and walking through uneven grounds. However, we do have a written itinerary and information provided by guides on the tours.</p>

## Cultural interactions

5

1

Action			Details
<p><b>5.10. Good practices</b> The organisation follows international and national good practice and locally agreed guidance for the management and promotion of visits to indigenous communities and culturally or historically sensitive sites in order to minimise adverse impacts and maximise local benefits and visitor fulfilment.</p> <p>The organisation demonstrates awareness of, and compliance with the above for tourist visits to cultural sites and indigenous communities.</p>	✓	—	We meet local guidance for all visits.
<p><b>5.11. Community engagement</b> The organisation engages with communities / sites in reviewing guidance and creating and agreeing additional guidelines as necessary.</p>	✓	—	We do not get personally involved with the management of /organisation of local communities.
<p><b>5.12. Guidelines</b> Guidelines are effectively used and communicated.</p>	✓	✗	
<p><b>5.13. Prevention of child abuse</b> Particular measures are in place to avoid inappropriate interaction with children.</p>	✓	✓	We do not deal with children or include them in our tours or include any visits to anywhere with children in a vulnerable setting.
<p><b>5.14. Local guides</b> The organisation participates in / supports training and use of local guides.</p>	✓	✓	It is part of entire company ethos to use local guides on all of our tours where practical. You can see evidence of our local guides through our social media channels. We often feature them in posts and and youtube videos and in presentations to our customers. We also issue a How To

			for our guides as attached.  Being a TD Tour Guide 2023.pdf
<b>5.15. Feedback</b> Feedback from local communities and from visitors is encouraged and acted upon.	✓	✓	We request feedback from all customers on all tours on their return. These are our CSQ's which are then collated and reviewed on a monthly basis by the relevant product owner - see supplier feedback info.  CSQ.docx

## Presenting culture and heritage

6

Action			Details
<b>5.16. Authentic experience</b> Sites visited and experiences offered provide an authentic experience of local culture and heritage.	✓	✓	The entire premise of our tours is to showcase local culture and heritage. This can be seen on the itineraries on our website: <a href="https://www.tdactiveholidays.com/holiday/explore-jordan">https://www.tdactiveholidays.com/holiday/explore-jordan</a>
<b>5.17. Accurate information</b> Visitors are provided with accurate information and/or interpretation that provides the potential for better understanding and appreciation of local heritage in two of the following areas:  - Sacred sites - Local myth, legend and romance - Local history	✓	✓	Most of the above would all be covered by the local guides. We have a guide manual attached which is sent out to all of our guides and updated regularly (most recently updated and sent out in early April 2023)   Being a TD Tour Guide 2023.pdf

<ul style="list-style-type: none"> <li>- Local folklore</li> <li>- Local food culture</li> <li>- Local famous/infamous sons and daughters past and present</li> <li>- Music &amp; song</li> <li>- Dance</li> <li>- Ethnic Communities</li> </ul>			
<p><b>5.18. Offering local experiences</b> Living cultural heritage and traditions are evident in cuisine, retail, events and other services offered.</p>	✓	✓	We aim to always provide an authentic experience for our customers who are travelling in order to experience the local culture. You can see examples of the types of local culture and activities we provide here: <a href="https://www.tdactiveholidays.com/travel-blog/what-to-expect-from-a-t-d-active-explore-holiday">https://www.tdactiveholidays.com/travel-blog/what-to-expect-from-a-t-d-active-explore-holiday</a>
<p><b>5.19. Respect of property rights</b> Copyright and intellectual property rights have been observed and necessary permissions obtained.</p>	✓	✓	
<p><b>5.20. Local community involvement</b> The views of the local community have been sought on the presentation of local cultural heritage.</p>	✓	✓	We use local guides to show our customers around the local community. You can see some examples here: <a href="https://www.traveldepartment.com/about-us/our-guides">https://www.traveldepartment.com/about-us/our-guides</a>
<p><b>5.21. Interpretive Plan</b> A current documented interpretive plan is in place which include a section detailing how the plan will be implemented. The plan should include the following:</p> <ul style="list-style-type: none"> <li>• Research carried out</li> <li>• Products’ target audience</li> <li>• Main themes and messages of the interpretation</li> <li>• Goals and objectives of the interpretive experience</li> <li>• Structure of the interpretive experience (e.g. guided tour, demonstration,</li> </ul>	✓	—	

course) <ul style="list-style-type: none"> <li>• Special features of the interpretation (e.g. visual, fun, interactive etc)</li> <li>• Communicating the principles of ecotourism</li> <li>• The significance of the ecotourism area</li> <li>• Monitoring and evaluating the interpretation</li> <li>• Improving the interpretive experience over time</li> </ul>			
---	--	--	--

## Artefacts

3

Action			Details
<b>5.22. Documentation</b> Historical and archaeological artefacts are not sold, traded or displayed, except as permitted by local and international law.  Any use of artefacts is transparent and / or documented and reported.			We do not sell items.
<b>5.23. Respecting laws</b> Where artefacts are used, laws and bylaws have been identified that permit such use.			not applicable
<b>5.24. Protection</b> Visitors are prevented from removing or damaging artefacts.			Not applicable

## Access for all

3

Action			Details
<b>5.25. Accessible sites</b> Sites, buildings and activities are accessible to persons with physical disabilities and other special needs, as appropriate to the nature of the operation.			We allow for people with most kinds of disabilities, apart from those which would pose a health and safety risk while travelling.
<b>5.26. Spread of information</b> Clear and accurate information is provided on the level of accessibility.			
<b>5.27. Certification and proof</b> Accessibility is certified or checked with relevant experts/user bodies.			We have an outsourced H&S company who ensure the relevant hotels and coaches we use have the required certification. This is through Tranquilico UK.

## Sustainable practices and materials

4

Action			Details
<b>5.28. Buildings &amp; Construction</b> Local materials, practices and crafts have been used in buildings and design where practical and appropriate.  Sustainable design, materials and construction practices have been used in buildings, with appropriate certification where possible.			Not applicable as we do not get involved in any building & construction.
<b>5.29. Landscaping and decoration</b> Native and endemic plants obtained from sustainable sources have been used in landscaping and decoration, avoiding exotic and invasive species.			The only landscaping we have is plants on our balcony in our office.
<b>5.30. Adequate planting</b>			Plants planted by Frances and Ian McDonald who run our garden

Plants have been selected for their ability to tolerate prevailing or anticipated conditions eg drought tolerant plants.			tours: <a href="https://www.traveldepartment.com/garden-holidays">https://www.traveldepartment.com/garden-holidays</a>  Planters.jpg
<b>5.31. Construction waste</b> Waste from construction is sorted and disposed of in an environmentally sound manner.	✓	—	not applicable as we do not get involved in any construction.

## 6. Biodiversity & Conservation

23

4

### Biodiversity conservation

9

Action			Details
<p><b>6.1. Evidence of awareness</b> The organisation supports and contributes to biodiversity conservation, through appropriate management of its own property. Particular attention is paid to natural protected areas and areas of high biodiversity value. Any disturbance of natural ecosystems is minimized, rehabilitated and there is a compensatory contribution to conservation management.</p> <p>The organisation also demonstrates awareness of natural protected areas and areas of high biodiversity value in the areas visited.</p>			<p>We are based in a city centre office but have a small outdoor balcony with plants. 4 Large planters contain hardy plants and flowering plants for pollinators.</p> <p> Planters.jpg</p>
<p><b>6.2. Monetary support</b> The organisation provides and records monetary support for biodiversity conservation in its main areas of operation / visited.</p>			<p>Money for the balcony planting was provided by Travel Department.</p>
<p><b>6.3. In-kind contributions</b> The organisation provides and records in-kind or other support for biodiversity conservation in its main areas of operation/visited.</p>			<p>Staff will be assisting with the planting on the balcony</p>
<p><b>6.4. Active management</b> Properties owned or operated by the business are actively managed to support biodiversity conservation.</p>			<p>We only have the 1 city centre office on the 3rd floor.</p>
<p><b>6.5. Mitigating disturbances</b></p>			

The organisation is aware of, and mitigates, activity with potential to disturb wildlife and habitats.			
<b>6.6. Compensation</b> Compensation is made where any disturbance has occurred.	✓	—	Not applicable as we work out of an office in the city centre
<b>6.7. Encouraging visitors</b> Action is taken to encourage visitors to support biodiversity conservation.	✓	✓	
<b>6.8. Collaboration</b> The organisation engages with local conservation NGOs and National Parks and Wildlife services (NPWS) in its main areas of operation/visited.	✓	—	Not applicable.
<b>6.9. Leave No Trace</b> The organisation uses Leave No Trace Ireland guidelines when advising visitors in use of local natural areas.	✓	✓	We advise our customers of this for any trips which include natural areas.

## Protecting cultural heritage

2

1

Action			Details
<b>6.10. Monetary support</b> The organisation contributes to the protection, preservation and enhancement of local properties, sites and traditions of historical, archaeological, cultural and spiritual significance and does not impede access to them by local residents. The organisation makes and records monetary contributions to the protection of cultural heritage in its main areas of operation / visited.	✓	—	Not applicable.

<p><b>6.11. In-kind support</b> The organisation provides in-kind or other support for cultural heritage in its main areas of operation / visited.</p>	✓	—	
<p><b>6.12. Local access</b> The organisation ensures that its activities do not impede local access to sites. There is a statement that the tourism business does not impede local residents' access to natural amenities or historical, archeological, culturally and spiritually important sites</p>	—	—	Not applicable as we are not holding activities which could impede local access.

## Visits to natural sites

4

1

Action			Details
<p><b>6.13. Compliance with guidelines</b> The organisation follows appropriate guidelines for the management and promotion of visits to natural sites in order to minimise adverse impacts and maximise visitor fulfilment.</p> <p>The organisation is aware of, and complies with, existing guidelines for tourist visits to natural sites. These guidelines are used when conducting visits and informing guests.</p>	✓	✓	We adhere to all local guidelines on our tours.
<p><b>6.14. Training of guides</b> The organisation participates in / supports training and use of local guides in natural sites.</p>	✓	✓	
<p><b>6.15. Capacity management</b> Consideration is given to the capacity and fragility of natural sites and communities, and to the levels of pressure on them, in determining the size, frequency and timing of group visits.</p>	✓	✓	

<b>6.16. Local conservation</b> The organisation engages with local conservation bodies to establish / identify issues concerning visits to particular sites.	-	-	Not applicable
<b>6.17. Feedback</b> Feedback from local communities and from visitors is encouraged and acted upon.	✓	✓	Customer feedback regarding any natural sights is followed up on.

## Invasive species

2

2

Action			Details
<b>6.18. Monitoring</b> The organisation takes measures to avoid the introduction of invasive species. Native species are used for landscaping and restoration wherever feasible, particularly in natural landscapes. Properties owned or operated by the business are monitored for the presence of any invasive species.	✓	—	We will be using native species on our balcony come the spring and apart from that we are not planting or landscaping anywhere.
<b>6.19. Preventive actions</b> Action is taken to ensure invasive species are not introduced or spread.	✓	—	We are not bringing in or planting any invasive species.
<b>6.20. Eradication and control</b> A programme is in place to eradicate and control invasive species.	-	-	Not applicable as we work from an office.
<b>6.21. Review of landscaping</b> Landscaping of sites is reviewed to consider use of native species.	-	-	As we only have 4 planters, there is no review necessary./

## Wildlife interactions

6

Action			Details
<p><b>6.22. Compliance with guidelines</b> The organisation is <b>aware of, and complies</b> with, existing local, national and international regulations and guidelines concerning wildlife interactions, including wildlife viewing.</p>			<p>We do not include any wildlife interactions on any of our tours as per our animal welfare policy. We do include safaris with no animal interactions, just viewings and Kariega Game Reserve follow all local guidelines. See more here@ <a href="https://www.kariega.co.za/foundation/about-the-kariega-foundation">https://www.kariega.co.za/foundation/about-the-kariega-foundation</a></p>
<p><b>6.23. Developing local guidelines</b> The organisation <b>engages with the development and implementation of local codes and guidelines</b> for wildlife interactions, including wildlife viewing, as required, based on advice of wildlife experts.</p>			<p>We are not engaged with South African codes and guidelines, This is outside our remit.</p>
<p><b>6.24. Respecting local guidelines</b> The organisation <b>ensures that all service providers and sites visited comply</b> with existing local, national and international regulations and guidelines concerning wildlife interactions, including wildlife viewing.</p>			
<p><b>6.25. Wildlife feeding</b> Direct interactions, in particular feeding, should not be permitted, unless specifically sanctioned by internationally accepted standards or, where standards are not available, guided by independent wildlife expert advice.</p>			<p>We do not include any interaction with wildlife in our tours as per our animal welfare policy.</p> <p> Animal welfare full policy TD.pdf</p>
<p><b>6.26. Minimise disturbance</b> Measures are taken to minimize disturbance to wildlife.</p>			
<p><b>6.27. Monitoring</b></p>			<p>Not applicable as we are not directly involved in the wellbeing of wildlife in the different</p>

Impacts on wildlife wellbeing are regularly monitored and addressed.

countries we operate in.

## 7. Community Support & Stakeholder Engagement

24

1

11

### Destination engagement

3

Action			Details
<b>7.1. DMO contact</b> The organisation is in contact with the local Destination Management Organisation or equivalent body in the locations where it is most active.			We use DMO's on 99% of our tours.
<b>7.2. Planning and management</b> The organisation engages in the planning and management of sustainable tourism in those destinations where it is most active.			
<b>7.3. Tourism business network</b> Within the last year the business / organisation has been a member or renewed a membership of a tourism business network and attended at least three network events.			We are part of the ITAA and AITO attend regular events as well as their annual conferences and our CEO is on the board of both and Claire Doherty is on the Sustainable Committee for the ITAA involved in educating and encouraging participation of its members with Sustainable practises. Training was facilitated for the ITAA members from STI by Claire last June. We are also imembers (and ex Chairperson) of the Visit USA Committee Ireland.

### Land water and property rights

4

Action			Details
<b>7.4. On-site ownership</b>			<a href="#">not applicable as we rent an office in town</a>

On sites owned and operated by the organisation or over which they have direct influence / control, land ownership and tenure rights are documented.			
<b>7.5. Key resources</b> Use and access rights for key resources, including land and water, are documented where applicable.	--	--	<a href="#">Not applicable as we rent an office in town</a>
<b>7.6. Involving local communities</b> There is documentary evidence of communication, consultation and engagement with local and indigenous communities.	--	--	not applicable
<b>7.7. Proof of consent</b> Evidence of free, prior and informed consent of local communities is documented, where relevant (showing no involuntary resettlement or land acquisition).	--	--	not applicable

## Community support

Action			Details
<b>7.8. Support of initiatives</b> The organisation actively supports initiatives for local infrastructure and social community development. Examples of initiatives include education, training, health and sanitation and projects which address the impacts of climate change. The organisation supports initiatives with local communities in areas where it is particularly active.	--	--	
<b>7.9. Documentation</b> The level and nature of contributions made to schemes in the local communities is recorded.	--	--	

<p><b>7.10. Local support chains</b> In selecting service providers and products / experiences to feature in programmes, the organisation favours those that engage with and support local communities.</p>	✓	—	
<p><b>7.11. Work experience</b> Within the last 12 months the organisation has provided at least 4 weeks work experience for people interested in becoming involved in sustainable tourism. Work experience should be well structured with clear outcomes.</p>	—	—	

## Local employment

Action			Details
<p><b>7.12. Local employment</b> The organisation seeks to provide employment opportunities for local residents in some aspect of the development or delivery of the products and services (e.g. guiding, transport, catering etc.).</p>	✓	✓	Most of our guides are local to the areas of our tours, as are the bus drivers.
<p><b>7.13. Monitoring</b> The organisation monitors the level and proportion of employment it provides for local residents.</p>	—	—	
<p><b>7.14. Education and training</b> Training is offered to local residents to enhance their employment opportunities.</p>	—	—	
<p><b>7.15. Local service providers</b> In selecting service providers and products / experiences to feature in programmes, the organisation favours those that provide local employment.</p>	✓	—	We request with our DMO's that all guides be local where practical.

## Local entrepreneurs

2

Action			Details
<b>7.16. Providing support</b> The organisation supports local entrepreneurs in the development and sale of sustainable products and services that are based on the area's nature, history and culture. Where appropriate, the organisation provides advice and support to local service providers with whom it engages, on the quality and sustainability of their service.			
<b>7.17. Partnerships</b> Opportunities for joint ventures and partnerships with local entrepreneurs are considered and pursued where appropriate.			

## Local livelihoods

1

1

Action			Details
<b>7.18. Local access</b> The activities of the organisation do not adversely affect local access to livelihoods, including land and aquatic resource use, rights-of-way, transport and housing. Local access to livelihoods is considered in decisions about development and operations.			Not applicable
<b>7.19. Complaints register</b> A communication / feedback / grievance mechanism is in place for local communities to report any instance of reduced access to local livelihoods in			Not applicable

the main areas of operation/visited.

## Community services

1

1

1

Action			Details
<b>7.20. Monitoring of impacts</b> The activities of the organisation do not jeopardize the provision of basic services, such as food, water, energy, healthcare or sanitation, to neighbouring communities. The organisation monitors its impact on the availability of local services in the main area/s of operation / visited.			Not applicable
<b>7.21. Complaints register</b> A communication / feedback / grievance mechanism is in place for communities in the main areas of operation/visited.			
<b>7.22. Reduction in availability</b> Any reduction in availability of basic services to local communities, identified as the result of the organisation's activities, is addressed.			Not applicable

## Decent work

11

Action			Details
<b>7.23. Awareness of labor standards</b> Labour rights are respected, a safe and secure working environment is provided and employees are paid at least a living wage.
